Dear Xerte Community members,

I would like to participate with you in research of using modern ICT in everyday pedagogical work at your organisation as part of the project *Innovative Learning and Teaching for Quality Careers of Graduates and Excellent Higher Education* (hereinafter: INOVUP project).

The INOVUP project aims to improve the quality of learning and teaching at Slovenian higher education institutions. National consortium partners of the INOVUP project comprise of the largest Slovenian universities: the University of Ljubljana (leading partner), the University of Maribor and the University of Primorska as well as the Faculty of Information Studies in Novo mesto. The project offers a wide range of training courses on higher education didactics mainly for higher education teaching staff and other employees. Furthermore, multipliers have been created within the project, different publications on higher education didactics are being published as well as different conferences organized. You can find the details about INOVUP project on the web site: <http://www.inovup.si/en/>.

Multipliers are Slovenian higher education teaching staff from different fields of research and pedagogical work who are trained at foreign higher education institutions on different pedagogical issues. The lessons learned are expanded by multipliers into their home higher education institutions, as well as into the broader Slovenian higher education area. Namely, the aim of the latter activity is to transfer knowledge on different forms of learning and teaching as well as on pedagogical issues at system level (e.g. institutional, national level) from foreign higher education pedagogical practices to Slovenian higher education system.

The INOVUP project is a national project granted at the "Public Call for Innovative and Flexible Forms of Teaching and Learning". It is co-funded by the European Social Fund and the Slovenian Ministry of Education, Science and Sport. The operation is implemented within the framework of the Operational Programme for the implementation of the Cohesion Policy for the period 2014-2020.

According to the above mentioned I would like your advice on the possibilities of realizing my idea of working with you within the INOVUP project.

»The investment is co-financed by the Republic of Slovenia and the European Union under the European Social Fund«

REPUBLIC OF SLOVENIA
